

Creating Videos

- [Video - General Information](#)
- [Learning resource: Video](#)
- [Single Page: Add / edit video](#)
- [Video Upload](#)

The chapter "Creating Videos" will explain how course authors can create videos as learning resource in OpenOLAT before embedding them in a course. Here you will find information on video configuration and how to create and add subtitles. Furthermore, the page "[Single Page: Add/edit video](#)" contains information on how to embed a video in a single page course element. Learn how to prepare a video for import in OpenOLAT in the chapter "[Video Upload](#)".

The video module has been disabled by a system administrator if you can't find neither the video course element nor the learning resource.
