

Detailed View of Learning Resources

Toolbar

Each learning resource has a toolbar that provides access to various tools and settings. Which of the following actions is possible depends on your access authorization and on the learning resource type. You can access the toolbar from both the learning resource and the information page.

Examples of a course and a test toolbar:

The drop-down menu "Tools" gives you access to, for example

- the members management,
- the assessment tool,
- Statistics, etc.

For more information, see the relevant sections of a specific learning resource.

Via the drop-down menu with the name of the respective learning resource (e.g. course, test (QTI 2.1...)) you have access to functions such as,

- Change course info,
- Access configuration,
- Catalog entries,
- Options,
- Copy,
- Delete, etc.

Further information can be found in the corresponding chapters and under "[Course settings](#)".
