

# How-to....

This chapter provides you with information on OpenOlat exceeding the mere description of single elements or functionalities, and rather describing a set of steps with a specific goal in mind. Please feel free to contribute suggestions or even a successful best practice we could document.

[Mandy Menzel](#)

- [... create a bulk assessment for submission tasks](#)
- [... customize the course design with CSS \(Expert\)](#)
- [... use the same files in several courses](#)
