

Creating Tests

- [General Information on Tests](#)
 - [Changing from QTI 1.2 to QTI 2.1](#)
- [Four Steps to Your Test or Self-test](#)
- [Test editor QTI 2.1](#)
 - [Test question types](#)
 - [Configure test questions](#)
 - [Configure tests](#)
- [Test settings](#)
- [Tests at course level](#)

This chapter explains how OpenOlat authors can create tests, which question types are available and which configuration options are available. In addition, there is information on the integration and use of tests and self-tests in courses as well as the evaluation and provision of test results.
