

Creating Blogs

- [Four Steps to Your Blog](#)
- [Blog - Further Configurations](#)

In this chapter you will learn step by step how to create and embed a blog. Further configuration options will also be explained.

What are blogs?

The term "Blog" comprises "World Wide Web" and "Log." Blogs usually serve as online journals for personal as well as professional information. By means of blogs you can provide your course participants with texts, pictures or videos in a swift and easy way. Entries will be displayed sorted by time; the latest news will always be on top. Course participants can subscribe to blogs via RSS Feed. They can also comment on entries and assess them.

A blog is generally used like a public diary. Its advantage is its quick, standardized publication.
